GUJARAT BOROSIL LIMITED

HAIL IMPACT TESTING of the Low Iron Solar Textured Tempered Glass Report No. 119-17-3030A, Rev 1 Proposal No. 48989, Revision B

Customer Information

Gujarat Borosil Limited M.V. Ramana Ankaleshwar Rajpipla Road, Govali(Vill), Jhagadia (Tq), Bharuch, 393001 Gujarat State

Laboratory Information

Test engineers: Eric Lau and Andrew Eskildsen; Westpak™ Test dates: January 22, 2018 through February 1, 2018

Westpak™ laboratory: San Jose, California

WESTPAK™ is accredited to ISO 17025 General Competence for Testing and Calibration Laboratories, and registered to ISO 9001 Quality Management. Please visit http://www.westpak.com/page/quality/quality-certificates for WESTPAK, Inc.'s ISO 17025 Scope of Accreditation.

Purpose of Testing

The purpose of testing was to verify that the Equipment Under Test (EUT): Low Iron Solar Textured Tempered Glass was capable of withstanding hailstone impacts. Four (4) units were subjected to the following test input:

Test Input	Standard Referenced	Inspections	
Hail Impact	IEC 61215, Edition 2.0, Clause 10.17	During Test	

Acceptance criteria are specified by Clause 10.17 of IEC 61215, Edition 2.0.

Product Information

Product: Low Iron Solar Textured Tempered Glass

Panel Number	Thickness (mm)
1	2.5
2	2.5
3	2.0
4	2.8

Panel	Sample Dimensions					
Quantity	in (l x w)			cm (I x w)		
4	66.9	Х	39.4	169.9	Х	100.1

Test Equipment and Instrumentation

Testing performed in the laboratory was conducted at ambient conditions.

Please refer to Appendix I for equipment and instrumentation information and calibration dates.

ISO 17025 Accredited ISO 9001 Certified

Test Description

Hail Impact

The samples were mounted on a rigid support, with the smooth side facing the launcher. The launcher propelled 1 inch (outer dimension) spheres of ice. If the sample was undamaged, the test was repeated until eleven (11) hail shots were fired.

Number of samples: 4 samples

Target velocity: 23 meters/second Velocimeter distance: Less than 1 meter Shots fired: 44 total (11 per panel)

Shot locations: Random

Notes:

Report No. 119-17-3030A, Rev 1

The fabricated ice balls were frozen in a temperature chamber set at $-10\,^{\circ}\text{C}$ ($\pm 5\,^{\circ}\text{C}$). The ice balls were then stored in a temperature chamber set at $-4\,^{\circ}\text{C}$ ($\pm 2\,^{\circ}\text{C}$) for a minimum of one hour before testing. Ice balls were removed from the chamber and fired from the launcher within sixty (60) seconds of removal from the chamber.

Refer to the photos on the following page for impact locations per tested panel.

Results and Observations

Test Input	Observations	Appendix
Hail Impact	No major visual defects, as specified by Clause 10.17 of IEC 61215, Edition 2.0, were observed on the glass sheets as a result of this test input.

Conclusions

Four (4) Low Iron Solar Textured Tempered Glass units were subjected to hail testing as specified by **Gujarat Borosil Limited** referencing the IEC 61215, Edition 2.0, Clause 10.17.

No unusual external physical damage was observed to the units following hail testing; no breakage was observed.

Upon test completion, the units were returned to **Gujarat Borosil Limited** for further evaluation. The results of any such *evaluations* are unavailable to WestpakTM at this time.

There were no anomalies throughout the conduct of this test that would detract from the ability of **Gujarat Borosil Limited** from making reasonable judgments concerning the testing as described herein.

WESTPAK™ is pleased to present this report to Gujarat Borosil Limited covering the hail impact testing of the Low Iron Solar Textured Tempered Glass. The test results apply to the samples described in this report. The equipment used to conduct this testing has been recently calibrated and is known to be in good operating condition. In addition the test operator uses good laboratory practice at all times. Therefore, the data is considered accurate and reliable. However, there is no warranty expressed or implied with the submission of this report, and Gujarat Borosil Limited assumes all liability for use of the data contained herein.

Respectfully submitted,

WESTPAK, INCORPORATED
